

WASHTECH

VEHICLE WASH SYSTEMS

Washtech's top-of-the-line Self-Serve Carwash Systems provide operator versatility, optimum efficiency and minimum downtime. The unique, modular design allows Washtech to build any size of carwash quickly and easily. The compact design also uses less floor space than any of our competitors. Built around quality components from such companies as CAT, FloJet and Baldor, you can trust that Washtech Equipment is built to last. Washtech sets the standard for others to follow.
